Software Developer | Full-Stack Developer | Java / Python | SQL | AI & ML

PROFESSIONAL SUMMARY

MCA candidate and full-stack software developer with experience across web, mobile, backend, and database-driven systems, including RESTful API design, relational and NoSQL databases, and Agile team-based delivery. Additional hands-on experience building applied AI systems (LLMs, RAG, LangChain, FAISS, Prompt Engineering). Two-time hackathon finalist (Mumbai Hacks and IIT Bombay) with published research and a strong academic record (MCA 9.14 CGPA). Seeking Software Engineer, Full-Stack Developer, or AI/ML Engineer roles.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, Dart, PHP, SQL

Core CS & Software Engineering: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Software Development Life Cycle (SDLC), Agile methodology

Frameworks & APIs: Flask, Node.js, Express.js, LangChain, Flutter, RESTful API design & integration

Databases: MySQL, MongoDB, SQLite, FAISS (Vector Store)

Tools & Practices: Git, GitHub, VS Code, Android Studio, IntelliJ IDEA, Google Colab, code reviews, structured debugging

AI & ML (Additional): Prompt Engineering, LLM integration, RAG pipelines, semantic search & retrieval

COURSEWORK / SKILLS

Data Structures & Algorithms; Machine Learning & AI; Database Management (DBMS); Big Data (NPTEL); Operating Systems; Object-Oriented Programming; Web Development; Data Science & Analytics

EXPERIENCE

Android / Web Application Developer - Creactalysis | Dec 2024 - Jul 2025 | Remote

- Developed and maintained Android and web application features over an 8-month engagement, working across the full SDLC from requirement discussion to deployment.
- Participated in Agile sprints, peer code reviews, and structured debugging cycles to resolve bugs and improve release quality; collaborated with a distributed remote team via Git/GitHub.

Software Development Intern - Prodigy InfoTech | Jun 2024 - Jul 2024 | Remote

- Completed hands-on software development tasks under mentorship, applying core programming and debugging skills to real assignments.
- Strengthened collaborative problem-solving through structured code reviews and remote team communication.

Campus Ambassador, Google Gemini AI Program - Google Student Ambassador | Mar 2026 - Present | Mumbai

- Led on-campus workshops promoting adoption of Google Gemini AI tools, driving student participation in AI trials and developing communication and stakeholder-management skills.

Student Ambassador, NEP Saarthi (Academic Reforms Initiative) - TCET | Jan 2026 - Present | Mumbai

- Selected under NEP 2020 to lead institution-wide student engagement and coordination on academic reform awareness.

PROJECTS

RAG-Based AI Academic Assistant - Python, LangChain, FAISS, LLM | Jan 2026 - Mar 2026

- Built an end-to-end Retrieval-Augmented Generation (RAG) pipeline using LangChain and a FAISS vector store to answer student queries over an institutional knowledge base.
- Designed and debugged a semantic chunking and retrieval strategy, improving answer relevance over a keyword-search baseline in internal testing.

TCET Specialization Tracker - HTML, CSS, JavaScript, PHP, AJAX, MySQL | Apr 2026 - Jun 2026

- Led a small team to build a full-stack, database-driven specialization-tracking system managing student specialization selection and academic records.
- Built and debugged dynamic frontend/backend modules, improving real-time data updates and system usability.

Local Service Search Engine (QuickServe) - Node.js, JavaScript, HTML/CSS, MongoDB | Feb 2025 - May 2025

- Developed a full-stack hyperlocal platform connecting users with nearby electricians, plumbers, mechanics, and tutors via location-based search.
- Designed and integrated RESTful APIs (Node.js/Express) for scalable multi-category service-provider data management.

QuizAI - Flutter, Dart, Firebase, AI Integration | Sep 2024 - Nov 2024

- Built a cross-platform quiz app with dynamic quiz generation, adaptive difficulty levels, leaderboards, and performance analytics.

EDUCATION

Master of Computer Applications (MCA) - CGPA 9.14 - Thakur College of Engineering & Technology (TCET) | Sep 2025 - Jun 2027 | Mumbai, India

BS in Data Science & Applications - CGPA 7.67 - Indian Institute of Technology, Madras (IITM) | Jan 2026 - May 2029 | Remote

B.Sc. Computer Science - CGPA 9.09 - University of Mumbai - Thakur Ramnarayan College | Jul 2022 - Apr 2025 | Mumbai, India

CERTIFICATIONS

Data Structures and Algorithms using Java (Infosys Springboard); Programming using Java (Infosys Springboard); Machine Learning with AI using Python (Microsoft); Introduction to Big Data (SWAYAM/NPTEL); AI Tools Proficiency (Freedom With AI); Java Programming Fundamentals; Introduction to Database Management Systems (DBMS); Google Gemini AI Program (Campus Ambassador Training)
